## TIDD PC28-3G

# CLEANER STRONGER SAFER

3G

**TRT** MADE POSSIBLE

## PC28-3G OVERVIEW

The TIDD PC28-3G is a mobile articulated crane with a maximum lifting capacity of 28 tonne. The TIDD PC28-3G prioritises safety and provides superb roadability, outstanding lifting capacities, and unparalleled versatility. The TIDD Crane has proven itself to be the safest pick and carry crane in Australia and now features the highest emission control diesel engine available.

The development of the TIDD PC28-3G is driven by TRT's continuous focus on innovation and actively exceeding expectations for our customers.

### ENGINE

**Euro 6 - 238kW / 300hp Cummins ISB6.7 Engine. The Euro 6 engine provides up to a 90% decrease in particulate exhaust emissions, contributing to a healthier environment for operators, riggers and the planet.**

### TRANSMISSION

**Allison Transmission with retarder, providing retardation-style braking capabilities.**

- SAFETY: The retarder delivers increased safety and control.
- Lowered operational expenses from a reduction in repairs and maintenance.
- Improved user experience.
- Reduced noise in urban areas compared to an engine braking system.
- The transmission has 6 forward speeds. Speed Limited to 80km/hr

### Full Power Boom

With the 18.65m full power boom, a 75% stationary chart for the heavy lifts, and 66% pick and carry chart, the TIDD PC28-3G packs, a massive punch. Made from high-tensile steel, telescope sections 1 and 2 are fully synchronised and provide hook compensation.

### Huge Lift Capability

With a 28t maximum lift on the lug and 27.6t on the hook block, the TIDD PC28-3G delivers outstanding lifting capacities for improved efficiency and greater lift options, setting a new benchmark in the industry. Moving from the stationary chart to the pick and carry chart is as simple as turning off the hold brake. You can now lift more and move more safely without compromise.

Including more powerful front suspension cylinders, lifting capacity has increased by an average of 17% when articulated or working on a side slope and in some cases by over 40% in lifting performance. The optional 1.1t Superlift counterweight will increase lift capacity.

### Focused on Safety

Designed to maximise operation safety, the TIDD PC28-3G will minimise risk on the work site and the road. Safety features include Dynamic LMI with a deadlock switch inside the cabin and an LMI bridging switch outside the cabin. Slew Safe® is a critical safety component that is included with all TIDD PC28-3G Cranes.

The innovative safety features of the TIDD Crane, including the LMI bridging switch as standard, enable the TIDD PC28-3G to legitimately operate under EN13000 standards. This also means that the TIDD PC28-3G is the only Pick and Carry Crane in its class with a 75 percent stationary lift chart.

### Superior Roadability

**Traveling between sites is effortless with a maximum speed of 80km per hour (speed limited) with reduced ambient noise, and ABS braking for improved safety.**

It is driven by a Cummins Engine Allison Transmission. With its superior suspension, the TIDD PC28-3G is 12 tonne per axle on the road including its 2.3 tonne removable counterweight. No IAP and no permits in NSW.

### The Ultimate in Comfort

From the ergonomically designed forward mounted ROPs style cabin, with two-door configuration and ducted air conditioning, to the 150kg rated air suspension seats and 3-point safety belts, this crane is designed for comfort over long hours, helping to reduce operator fatigue!

### Manufactured for the Industry

TRT has been designing and manufacturing heavy equipment, cranes, and trailers for over 56 years. With real expertise in crane design and manufacture, TRT is the home of the TIDD Crane.

Many of the TIDD PC28-3G features are designed based on industry and operator feedback, improving safety, lift control, and capability, and by drawing on technology and knowledge from our renowned manufacturing ability and experienced team. TRT's manufacturing operation is ISO9001-2015 accredited

### Service and Support 24/7

TRT makes upgrading your fleet to include TIDD PC28-3G simple and efficient for all operators and owners. TRT's service and spare parts support, warehouse facilities, and network of experienced dealers throughout Australia and New Zealand are second to none.

The choice to opt for a Cummins engine was significantly influenced by the outstanding Cummins Service Network. With 37 branches and 170 authorised dealers spread across the South Pacific, their support is unmatched.

**TRT is committed to supporting operations and uptime, 24/7.**

### Operator Familiarisation

TRT has developed an exclusive and comprehensive operator familiarisation program for training operators. The program is designed to suit your schedule and location. Your team is supported by experienced TIDD Crane experts 24/7 with our new comprehensive video which is included with your TIDD Crane\*.

\*Conditions apply

# EURO 6 CUMMINS ENGINE

**The Cummins ISB6.7 is certified to the world's toughest emission standard calling for near zero emissions.**

Cummins designs, develops and supports every component from the air handling to the exhaust aftertreatment to work as a totally integrated system - so every function is optimised better than other engine manufacturers.

## FEATURES AND BENEFITS

The ISB6.7 comes equipped with leading edge technology, to provide key operational benefits.

This engine delivers exceptional performance with the reliability and durability expected from Cummins. Whatever your application, the ISB6.7 will provide a low cost operation and maximum uptime.

### FUEL ECONOMY

The ISB6.7 achieves best in class fuel economy through integration of critical engine technology and sub-systems.

### TECHNICAL INNOVATION

Ensures the ISB6.7 has low maintenance requirements and long service intervals.

### ISB6.7 Specifications

Advertised Horsepower	280-325 hp
Peak Torque	750 lb-ft
Governed Speed	2600 rpm
Clutch Engagement Torque	400 lb-ft
Number of Cylinders	6
System Weight	616 kg
Engine (Dry)	522 kg
Aftertreatment System*	94 kg

\*Increase over standard muffler; does not include chassis OEM-supplied components

**\*CUMMINS AFTERTREATMENT SYSTEM FROM CUMMIN EMISSION SOLUTIONS** - Proprietary system consists of a Diesel Particulate Filter (DPF) and Selective Catalytic Reduction (SCR) technology for near-zero emissions.

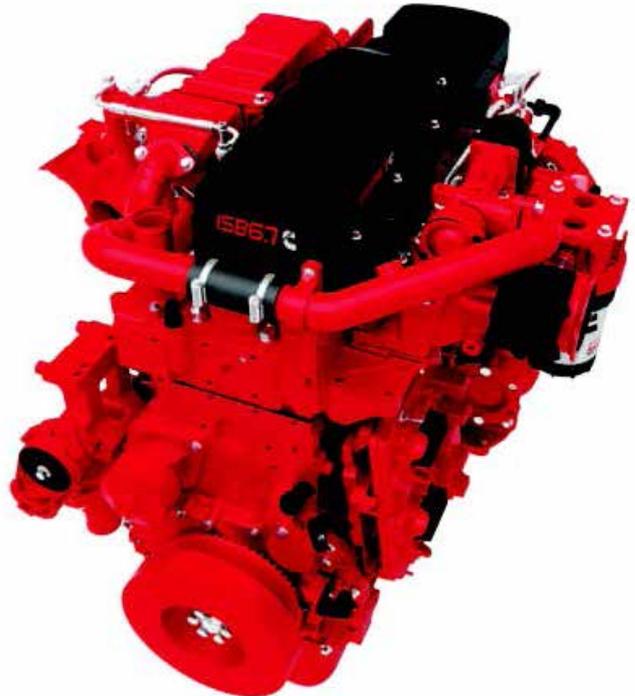

### ISB6.7 Ratings

Engine Model	Advertised HP (kW)	Peak Torque LB-FT (N•m)@RPM
ISB6.7 325	325 (242)	750 (1017) @ 1800
ISB6.7 280	280 (209)	660 (895) @ 1600

## THE CLEANEST TRUCK ENGINE

Meeting current and future emission standards, the ISB6.7 is certified to Euro 6. This is achieved by integrating in house design and assembly, allowing Cummins to calibrate the engine and aftertreatment system for optimum fuel economy and performance.

**The emissions are managed by the proven Cummins Aftertreatment System\*, which has been thoroughly tested and validated under the most extreme conditions.**

# PC28-3G FEATURES Page 1/2

## 1: COUNTERWEIGHT

2.3 tonne roadable counterweight. Optional Superlift counterweight available (see page 8).

## 2: EMERGENCY STOP BUTTONS

- Inside cabin
- Either side of the crane articulation area.

LMI override key is located outside behind the cabin.

## 3: ARTICULATION

Articulation 44° either side of centre providing unmatched maneuverability, best in class.

## 4: ROPs STYLE CABIN

ROPs, 2-person cabin, seats have integrated seatbelts. Double door access. Optional FOPs for optimal protection.

## 5: ENGINE

Euro 6 Cummins Engine, the highest emission control diesel engine in the pick and carry crane market (see page 3).

## 6: VISIBILITY

Mirrors are placed for optimised visibility. Additional cameras are also available for increased safety.

## 7: DYNAMIC LMI

Advanced LMI technology automatically configures lifting chart when operating on side slopes.

## 8: CARRY DECK

1 Tonne capacity carry deck with restraint points.

## 9: BOOM

6.12-18.65m high tensile full power boom with 4 telescope sections manufactured in house.

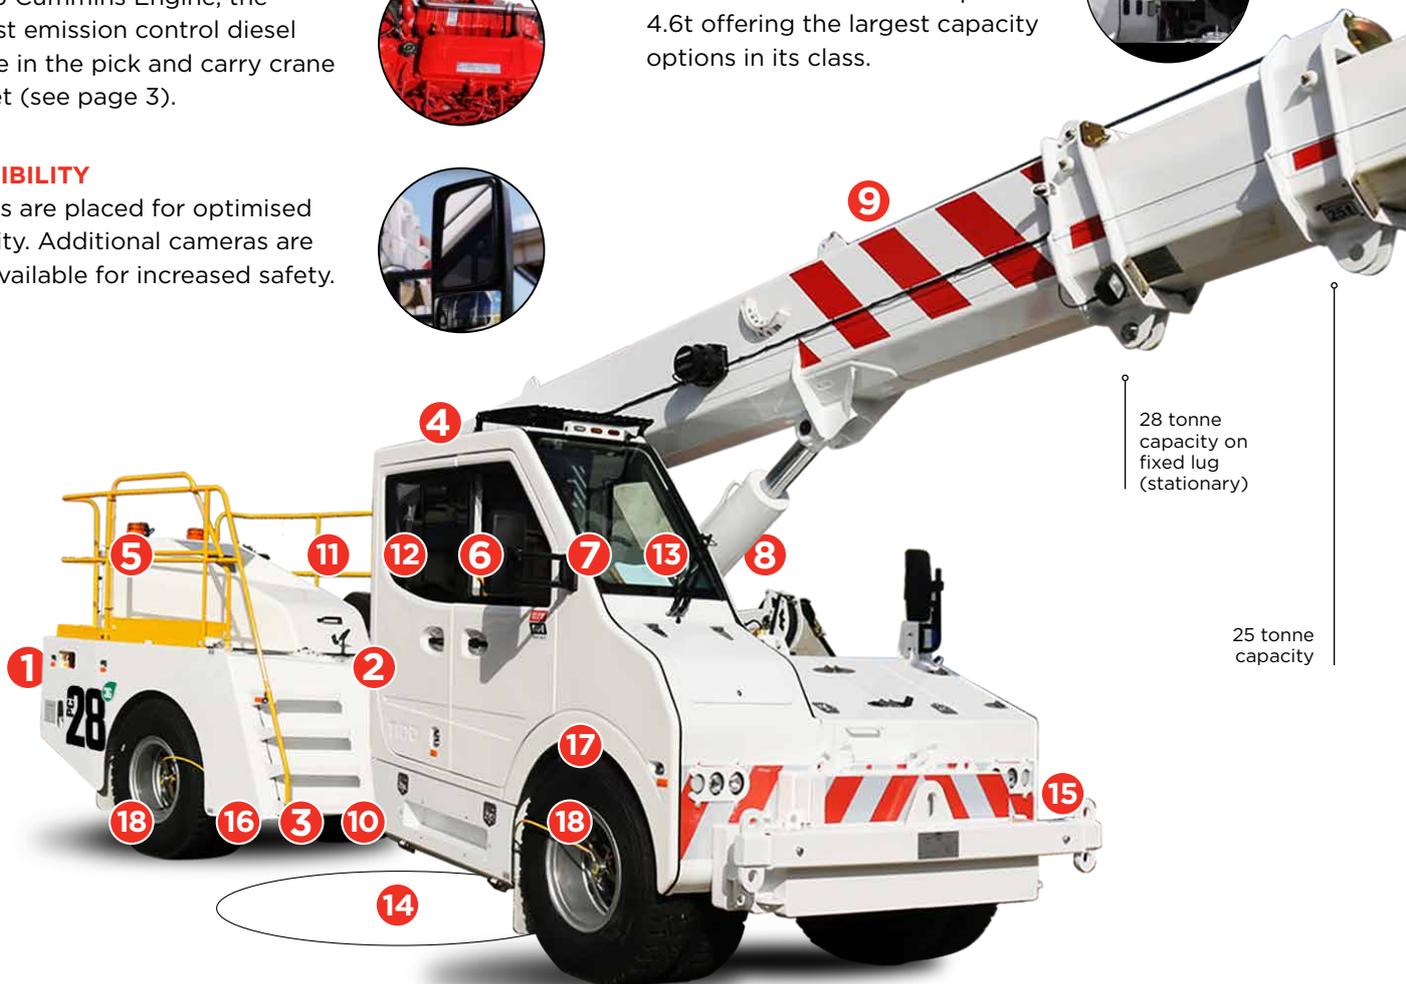

## 10: WIRING LOOM PROTECTION

Robotic style cable through the pivot with a woven protection in exposed areas giving improved durability and life extension.

## 11: WINCH

Winch with increased line pull of 4.6t offering the largest capacity options in its class.

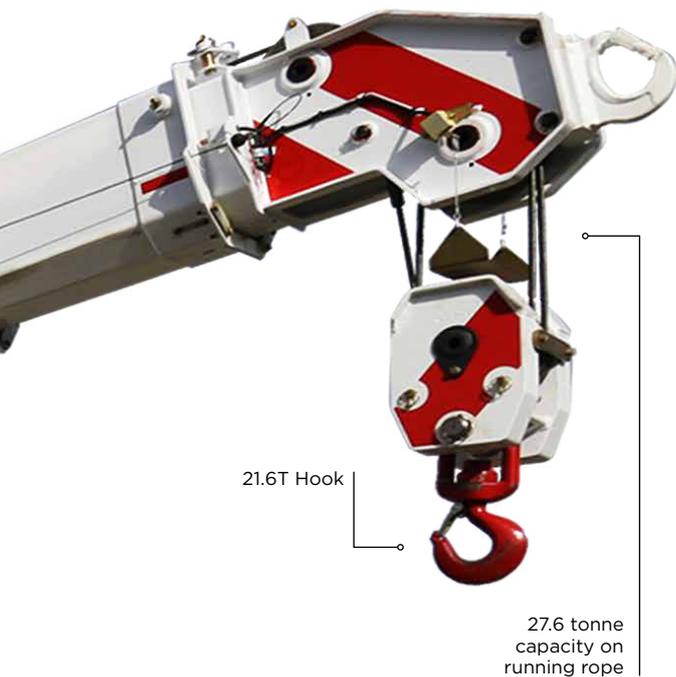

# PC28-3G FEATURES

## 12: OPERATOR COMFORT

With operator comfort a priority, Red Dot air conditioning provides advanced cooling technology designed for the harshest conditions, extended leg room for the dogman, 2 x 5 star comfort rated 150kg air suspension seats with 3-point seat belts and additional USB ports makes operating a true pleasure.

The TIDD is Australia's safest pick and carry crane, engineered to the highest quality of design, with all components being manufactured and assembled at TRT Hamilton, New Zealand.

## 13: SLEW SAFE®

Slew Safe® is a critical safety component that is exclusive to TRT and included in all TIDD PC28-3G cranes. The innovative safety feature of the TIDD Crane, including LMI bridging switch as standard, enables the TIDD PC28-3G to legitimately operate under EN13000 standards. This also means that the TIDD PC28-3G is the only pick and carry crane in its class with a 75% lift chart with holding brake applied (see page 7).

## 14: TURNING RADIUS

With its modern compact design, a width of only 2.5 mtrs and a 44° articulation making it the most maneuverable PC on the market.

## 15: HEADLIGHTS

Newly designed head lights with modern LED technology giving long life span, low heat levels, brighter light, reliability and environmentally friendly.

## 16: BRAKE RETARDER

New transmission retarder operating through the PTO supplies superior braking retardation downhill delivering reduced noise levels, increased safety and control - resulting in less wear and tear on brakes.

## 17: SUPERIOR SUSPENSION

Hydro-pneumatic front suspension offers the operator superior highway road handling and advanced stability on uneven terrain.

## 18: CTI TRACTION AIR®

Traction Air® CTI Tyre Pressure Control System is an optional extra. Creating a stable lift platform, improving crane safety, and operator confidence. There is no need for manual tyre pressure checks on start-up, reducing pre-start times (see page 8).

# DIMENSIONS

## CAPACITY

28 tonne capacity on fixed lug  
27.6 tonne capacity on running rope

## BOOM

6.12-18.65m high tensile steel  
4 section full power boom

## ARTICULATION

44° either side of the centre

## SPEED

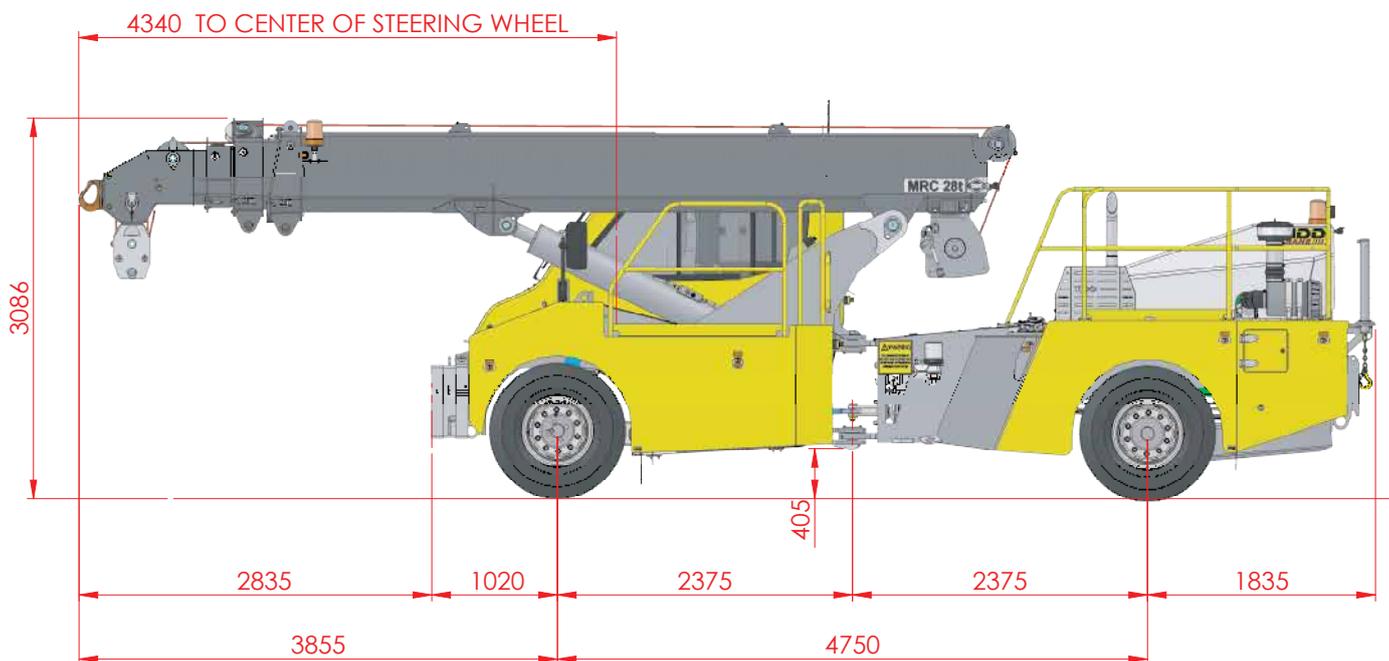

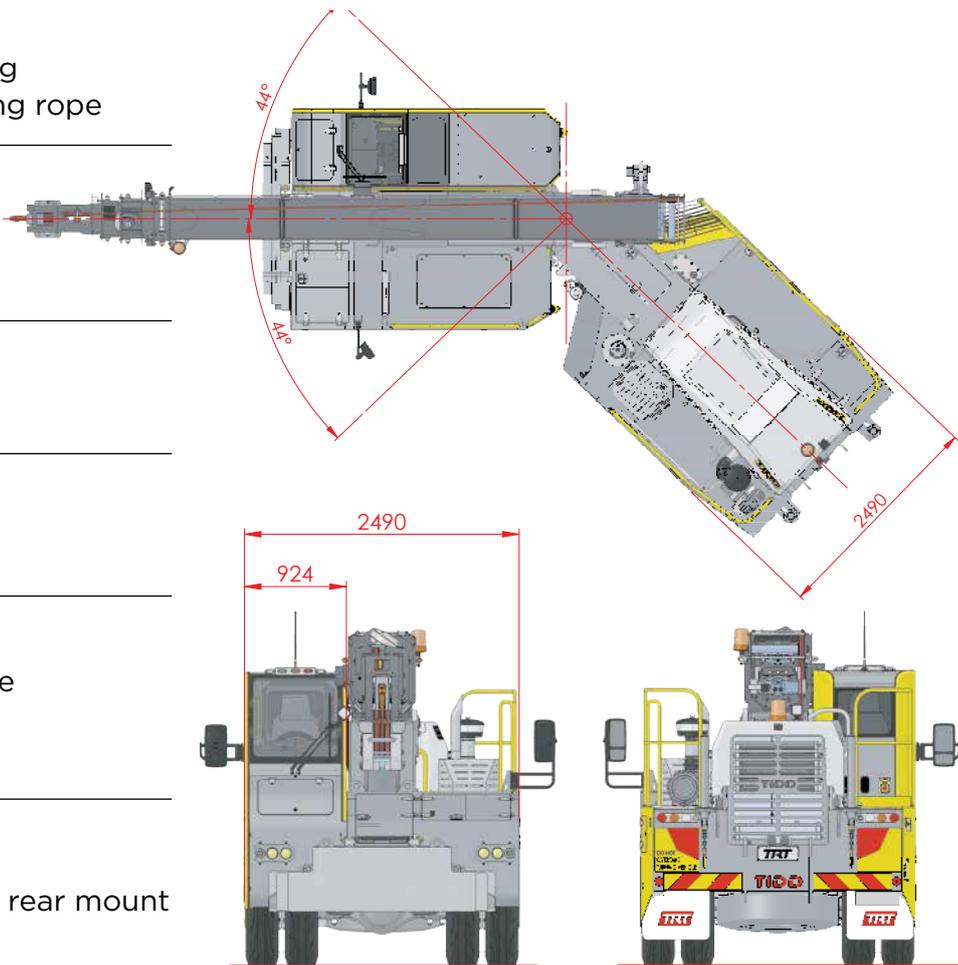

Max 80km/hr

## MASS

Gross vehicle mass 23.9 tonne  
Front axle mass 11.9 tonne  
Rear axle mass 12 tonne

## COUNTERWEIGHT

2.3 tonne roadable, front and rear mount

# SPECIFICATIONS

The TIDD PC28-3G is built with specialist features for construction and mining. There are a wide range of options available to tailor the crane to your application. If the options you require are not listed below, please contact one of our experts.

CRANE	DRIVELINE	OPERATOR
Double acting hydraulic cylinders (-6 to + 65°) with integral holding valve, allowing rigging to drop straight into the front chain box from the hook.	Euro 6 Cummins Engine, the highest emission control diesel engine in the pick and carry crane market.	Forward mounted cabin provides excellent vision.
Anti-two block device.	Allison 3000 series automatic transmission with retarder, 6 speeds forward.	ROPs style, 2-person cabin with double door access.
Robway RCI8510 Dynamic Load Indicator with automatic cutouts and digital display.	Kessler high-speed planetary axles with diff lock on front axle.	2 x 150 kg rated air suspension seats with 3-point seat belts.
A dash mounted deadlock switch allowing a temporary increase to 110% RC only with reduced function speeds.	ZF transfer case.	Large dry storage area via the hinged cabin steps, ideal for storing soft slings.
A key locked bridging switch is mounted externally on the cab limiting access to authorised persons.	410 litre fuel tank with locking cap.	Hand rails and access steps all have 3 points of contact at all times.
Joystick control of boom and winch functions with 2-speed winch button, boom-telescoping switch proportionally controlled, and boom luffing with dead man trigger on grip.	Automatically activated emergency hydraulic steering.	
15 tonne capacity Rhino hook.	Dual line full air brakes on all wheels with ABS.	
4.6 tonne line pull Braden PD15 2-speed winch with automatic disc brakes and third wrap indicator.	Pneumatically released spring applied emergency / park brake on all wheels.	
14mm non-rotating wire rope x 6 falls.	Holding brake for front right wheel to allow slewing during stationary lifting.	
15 tonne capacity spreader bar.	Auto grease system.	
Large 2-sectioned chain box at the front of the crane and accessed directly from the hook.	TIDD hydro-pneumatic suspension on the front axle with hydraulic lockout for crane mode and automatic height adjustment for road mode.	
1 tonne capacity carry deck with restraint points.	Heavy duty parabolic spring suspension on rear.	
Two work lights on the boom and one rotating beacon on the boom and engine cover.	High quality load sensing piston pump for hydraulic system, 305 litre hydraulic tank with filtration byway of pressure and return line filtration.	
Three emergencies stop buttons, in cabin and either side of the crush zone in the articulation area.	Battery isolator, external jump start terminals and starter isolator as standard.	
Tri light safe load indicator on cabin roof with audible alarm.	LED 24V lighting system	
CraneSafe inspection.	Right side rear handrail for safe servicing of the engine area.	
1 year warranty standard.		
		Safety glass throughout.
		1.5 kg fire extinguisher.
		Mirrors - placement for optimised visibility.
		Reversing camera and alarm.
		Red Dot Air conditioning.
		Bluetooth, Radio and USB Port.
<b>OPTIONS</b>		
Crane	1.1 tonne Superlift Counterweight	
	Traction Air CTI Tyre Pressure Control System. Exclusive to TIDD Crane. Front and rear axles.	
	25° offset attachment for Rhino	
	Winch Camera	
	1.9m offset Fly Jib 0°, 20° and 40° offsets	
	Spare tyre and wheel	
	Spare wheel winch assembly for carrying under rear chassis	
	Loose wheel nut indicators supplied and installed	
	Custom paint to match your fleet (2 solid colours).	
	Man Basket - Supply Only	
Operator	9.2t capacity single sheave hook block	
	30t Hook	
	Refrigerated compartment under dogman seat	
	Seat covers for operator & dogman	
	9 kg fire extinguisher mounted front chassis left side	
	FOPS (Certified Cab Fall Protection System)	
	UHF radio supplied and installed	
	First aid kit	
Driveline	Overhead electrical safety warning system	
	Fogmaster fire suppression system	
	Engine fan belt guard assembly	
	Magnetic drain plug for hydraulic oil tank	
<p><b>This options list is not exhaustive. There are a range of other options available for the TIDD PC28-3G. If you do not see an option specified on the list above, please contact the manufacturer for a full list of options available.</b></p>		

# SLEW SAFE® INCLUDED IN YOUR TIDD PC28-3G

**Slew Safe delivers peace of mind for drivers, dogman, crane owners and site owners, with improved safety, risk management and duty of care.**

Slew Safe simply and effectively allows the TIDD operator to pick and carry a load knowing that they will be warned and restricted. No other pick and carry crane has this level of safety.

## HOW SLEW SAFE WORKS:

When the crane in operation moves from green and amber to **RED**, this is an overload notification (based on the lifting chart). This will activate the Slew Safe.

**When the crane is operated in the GREEN and AMBER areas of the lifting chart, Slew Safe will remain inactive.**

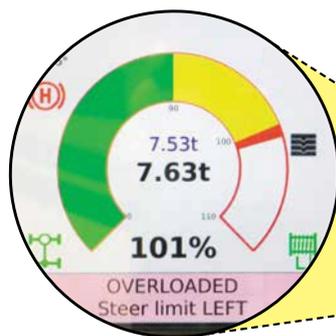

## ACTIVATION OF SLEW SAFE WILL:

- Reduce speed of the steering to 15% in the unsafe direction
- Makes steering harder with instant feedback through the steering wheel to operator
- The engine will “load up” making an audible sound change for operator
- Constant audible alarm inside and outside cabin to warn operator and dogman of overload

**Retains ability to move back to the safe direction for normal operation in GREEN.**

Watch the Slew Safe demonstration << video

Australian Innovation Patent No. 2019100317

“One of the fundamental principles shaping our plant investment strategy is a strong focus on safety. It’s worth highlighting that the TIDD PC28-2 demonstrates great safety features, including TRT’s exclusive Slew Safe® system, a critical safety component specifically designed to help prevent rollovers”

**Nathan Mitschuinig, Select’s Business Unit Leader.**

“The safety focus of the crane in the way in which it mitigates risks to stakeholders and protects staff was a significant factor that influenced our decision... I believe the TIDD Crane is becoming extensively talked about and more popular due to the safety innovations” **Rosario Giammona (Ross), Director of Vamp Cranes**

# SUPERLIFT COUNTERWEIGHT +12% CAPACITY

**The Superlift counterweight allows you to lift up to 12% heavier loads in both pick & carry and on stationary charts.**

When fitted to the base of the 2.3t roadable counterweight, the optional 1.1t Superlift Counterweight simply and effectively increases the capacity of the crane.

- 1.1t allows transport to, site under 3.5t with car licence
- Operator-friendly loading system using the crane
- Proximity sensor, auto-sensing for safety
- Fast and easy to set up
- Simple to use

For further information and lift charts please refer to pages 10-11 for both Pick and Carry and Stationary charts. Other lift charts are available on request.

“The crane features are perfect for the operating conditions. The TIDD Pick and Carry Crane is narrow, tight, and ideal for confined areas but still has the lifting capacity we need” **Ian Rowan, Director of QME Engineering**

## TYRE PRESSURE MANAGEMENT

**Traction Air® manages tyre pressure to the standard 130psi on all 4 front and rear tyres, creating a stable lift platform and improving crane safety.**

- Incorrect tyre pressure, over inflation or punctured tyres can put operators at risk.
- **Constant tyre pressure monitoring** with Traction Air allows operators to lift safely, and correctly every time. From a simple to use touch screen in the cab, instant leak and puncture alarms notify the operator of a change, reducing risk of serious incidents.
- **Improve safety and operator confidence.** There is no need for manual tyre pressure checks on start- up increasing valuable up time. No matter the surface temperature, even on bitumen, tyres on TIDD PC28-3G will remain at 130psi.
- Based on more than 25 years of product innovation and exclusive to TIDD PC28-3G, Traction Air has a **3 year /500,000km warranty\***.

STATIONARY	LMI DUTY 201-75
Boom Length (M)	
Rated Capacity (kg) for 0°-10° Articulation	
Rated Capacity (kg) for 16°-20° Articulation	
Rated Capacity (kg) for 26°-30° Articulation	
Rated Capacity (kg) for 36°-44° Articulation	

- STABILITY AS PER EN13000:2010 (MOD) AND AS1418.5 2013 PART 4.1.2.6.1 STATIONARY 75% OF TIPPING LOAD WITH HOLD BRAKE APPLIED
- OPERATION OF THIS MACHINE WITH HEAVIER LOADS THAN THE CAPACITIES LISTED IS STRICTLY PROHIBITED. MACHINE TIPPING WITH BOOM EXTENSION OCCURS RAPIDLY AND WITHOUT ADVANCE WARNING
- MASS OF SLINGS AND HOOK BLOCK TO BE ADDED TO LOAD
- DURING OPERATION, WIND SPEED MUST NOT EXCEED 36 KM/H (10 M/S)
- READ AND UNDERSTAND CRANE USER MANUALS BEFORE OPERATING
- BOOM ANGLE IS WITH RESPECT TO THE HORIZONTAL
- SPARE WHEEL NOT INCLUDED AS COUNTERWEIGHT

# WORKING RANGE WITH COUNTERWEIGHT ON REAR

NOTE: Rated capacity values shown are for the stationary chart on the hook.

## AFTER SALES SUPPORT

TRT is proud to manufacture the TIDD PC28-3G, and we are committed to supporting our product for its warranty and beyond. The team of highly experienced TIDD service technicians and agents are available to assist operators, fleet owners and workshops with training, advice, documentation and product upgrades.

## PARTS

TRT stocks genuine spare parts for the TIDD PC28-3G in Australia and New Zealand. We can easily arrange overnight freight for all spares and service items to ensure the Crane is returned to service with minimal downtime.

TRT reserves the right to alter specifications without notice. Photographs and drawings in this document are for illustrative purposes only. Product shown in photos contains optional features. TRT in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this brochure. Please contact us for current and detailed specifications. TRT (Aust) Pty Ltd & TRT (2021) Pty Ltd / Tidd Ross Todd Ltd is the manufacturer of the TIDD PC28-3G.
